[redacted] Comment. The arms and motor vehicle [redacted] mentioned in connection with the barracks installations confirms the presence in Plauen of the 112th Gds Vtz Rifle Regt of the 39th Gds Vtz Rifle Div until 12 September 1952. The bulk of the regiment participated in the field exercise at the post drill grounds at Kobitzschwalde on 25 August. It was observed marching out of the Hindenburg Kaserne on 10 September. [redacted] elements of the

220th Hv Tank SP Regt from Glauchau also took part in the practice on 25 August. The 87th Gun Arty Regt of the 39th Gds Vtz Rifle Div is carried in the Koenig-Georg Kaserne. [redacted] the installation to have been occupied to capacity during the period from 9 to 12 September 1952, it is fairly definitely believed that elements of the regiment were at Ohrdruf during the period of observation and did not return from there before 18 and 19 September 1952.
